

TCM Forklift Part

TCM Forklift Parts - In the global business of material handling, forklifts play an important part for transporting industrial goods. First innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition after WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machinery spread globally.

In the year 1949, founded by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the business is simply referred to as TCM Corporation. Through the years, TCM forklifts have become a worldwide leader in forklift manufacturing and have built a solid reputation in the business. TCM started building forklift manufacturing locations outside of Japan in the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With over 50 years of accumulated expertise and technology, TCM has been proudly making many models of industrial lift trucks, making their models known all around the world. With an energetic and strong employees, TCM has been able to continually work towards becoming a future leading material handling business.
