

Electrical Parts for Forklifts

Electrical Parts for Forklifts - Lift trucks and different lift trucks may have specific labels for use in certain hazardous locations. The label indicates that this specific model of lift truck meets the minimum standards of ANSI/UL 553 used for electric forklifts or ANSI/UL 558 for internal combustion engine lift trucks.

Applications for labeled lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance carrier and Fire Marshall for further info concerning the permitted uses of industrial powered trucks in your application.

If the specific lift truck meets the outlined standards, labels may be placed. A labeled forklift would show the type of designation located on the nameplate and would have a correctly corresponding label attached.
